-tion received from the Court of the Municipality Bangalore, and the land still continues in the occupation, much of the owners, Muslim, in view of these receptions, the land appears to have been used for burning dead bodies, belonging to the community residing in the Northern extension. A suitable ground for this purpose in absolutely necessary, but some objection has been raised to the appropriation of the land already selected for this purpose the reason is it is too close to the houses that have come, subsequent to 1898, springing up in the Municipal extensions, and the objection appears to me to be quite reasonable & well founded. It is not the interests of the inhabitants of the High ground and Cook's Estate and of those the two persons are in conflict and I see it is

difficult to decide about the place
that will meet with the wishes of

Mr. Taft

Mr. Ballinger. There cannot be any objection to the course suggested by the Secretary, but as the interests of two important Territories are involved, I would respectfully submit that the matter may be decided by responsible officers of State.
